

1st Workshop

"The New Generation in Strongly-Correlated Electron Systems"

Bringing together emerging researchers in novel states of electronic matter

June 20-26th 2010

Playa Blanca, Lanzarote,
Canary Islands (Spain)

Invited speakers:

Lara Benfatto (Rome)
María José Calderón (Madrid)
Marcello Civelli (Grenoble)
Maria Daghofer (Dresden)
Nicolas Doiron-Leyraud (Sherbrooke)
Alan Drew (London)
Simone Fratini (Grenoble)
Santiago Grigera (St. Andrews & La Plata)
Carsten Honerkamp (Aachen)
Hiroaki Kusunose (Matsuyama)
Mathieu Le Tacon (Stuttgart)
Marie-Aude Measson (Paris)
Francisco Rivadulla (Santiago de Compostela)
Christian Ruegg (London)
Hermann Suderow (Madrid)

Topics include:

High-temperature and unconventional superconductivity, non-Fermi-liquids, heavy fermions, quantum phase transitions, quantum magnetism, interplay between spin, orbital and charge degrees of freedom, oxide-heterostructures, organic materials.

Important dates:

Abstract submission: Jan. 10th – Feb. 12th 2010
Early registration before March 25th 2010
Late registration before April 30th 2010

Organizing Committee:

Elena Bascones (Madrid)
Belén Valenzuela (Madrid)
Andrés F. Santander-Syro (Paris)
